THE INTERFAITH ALLIANCE HAWAII announces “**COMPASSIONATE CARING**” as the theme for its 17th Annual Awards Celebration. Once again TIAH will honor outstanding service organizations and their selfless leaders.

In understanding “Aloha” we embrace compassionate caring for one another. What does that look like in practice? Is it just one donation after another? Can we move from survival and sustaining basic human needs toward thriving and flourishing by providing better foundations for all? Can we model such practices in housing, justice, policing, health care and immigration? What are the practices that work?
